

Critical Power Systems, Inc.

45 years in sales and service of Uninterruptible Power Supply Systems and Wood/Metalworking machinery. Supporting Uninterruptible Power Systems and Wood/Metalworking machinery throughout the South-Central US - MS, AL, FL, GA, AR, LA, TN and the Caribbean.

Call Critical Power Systems at 662-401-8831 or 662-322-0461

	<p style="text-align: center;">Staco Energy - https://www.staco.com/</p> <p>Staco Energy is one of the longest-lasting innovators of Power Quality and Voltage Control technologies in the world. Staco Energy continues to provide the reliability and continuity you need</p>
	<p style="text-align: center;">Xtreme Power - https://xpcc.com/</p> <p>Xtreme Power designs, engineers, and services UPS ranging from 350VA to 60kVA available in standby, line-interactive, on-line, and isolated on-line topologies.</p>
	<p style="text-align: center;">Eaton - https://www.eaton.com/</p> <p>Eaton is a power management company made up of over 96,000 employees, doing business in more than 175 countries. Their energy-efficient products and services help customers effectively manage electrical, hydraulic and mechanical power more reliably, efficiently, safely and sustainably.</p>
	<p style="text-align: center;">Controlled Power Company - https://www.controlledpwr.com/</p> <p>Controlled Power Company's mission is to improve the present and future security of its customers and employees through growth and profitability. This is achieved by designing and producing high-quality products and services in an efficient manner</p>
	<p style="text-align: center;">Powervar/Ametek - https://www.powervar.com/</p> <p>All AMETEK Powervar products are built around a philosophy called The ABC's of Power Conditioning. Each product incorporates the function of a low impedance isolation transformer, a power line noise filter, and a high energy surge diverter. These three elements are the core of Powervar's power quality solutions.</p>
	<p style="text-align: center;">Toshiba - https://www.toshiba.com/tic/power-electronics/uninterruptible-power-systems/</p> <p>The TIC Power Electronics division produces a versatile range of single-phase and three-phase uninterruptible power system (UPS) solutions and accessories hallmarked for outstanding performance and reliability.</p>
	<p style="text-align: center;">CyberPower - https://www.cyberpowersystems.com/</p> <p>Protect sensitive electronics and equipment during power surges and blackouts with an Uninterruptible Power Supply (UPS) system from their extensive line including standby, line-interactive, and double-conversion models, with backup capacities ranging from 350 VA to 10,000 VA. Key features include sine wave output, energy-saving GreenPower UPS™ design, data-line protection, and power management software.</p>
	<p style="text-align: center;">Vertiv/Liebert - https://www.vertiv.com/en-us/</p> <p>Vertive – an American, Ohio-based, provider of equipment and services for data centers, with a portfolio of power, cooling and IT infrastructure solutions and services that extends from the cloud to the edge of the network.</p>
	<p style="text-align: center;">GS Yuasa - https://gisyuasa-es.com/</p> <p>The world's second-largest battery company and a 100+-year-old Japanese corporation.</p>

Please visit our site at www.criticalpowersystemsinc.tech for information on all our lines of Uninterruptible Power Systems ranging from 300 to 2,000,000 watts and our Wood/Metalworking machinery. Whether your need is Uninterruptible Power Systems or Wood/Metalworking machinery, we have it all!

For quotes, delivery status, drawings or manuals on anything we sell, please call or assistance in sizing your power needs, call:

Annette Bannerman - 662-322-0461 - annette@criticalpowersystemsinc.tech
 Demps Bannerman - 662-401-8831 - demps@criticalpowersystemsinc.tech

	<p style="text-align: center;">Applied Energy - https://www.phaseback.com/ A total solution provider of surge suppressing, voltage stabilizing ground reference devices.</p> <p style="text-align: center;">Applied Energy, LLC is the world's only complete solution provider for maximizing power quality in AC and DC applications. The Phaseback VSGR prevents ground fault and arc flash events, saves energy, and minimizes harmonic distortion, all while providing a tangible, short-term payback, typically within one year of implementation.</p> <p style="text-align: center;">Phaseback's method of operation is unique to the power quality assurance industry. Accept no substitutes: prevention is the only true means of suppression</p>
	<p style="text-align: center;">Winco Generators - https://www.wincogen.com/ Portable, Commercial Standby, Prime, and PTO generators fueled by diesel, propane, natural gas along with Asco transfer switches and accessories for any application. Winco is USA made using only the highest quality components available. If you want quality & dependability, this is it! Call us for today for quotations, specifications and technical information on this fine line of generators.</p>
